

CAA International Estonian Chapter

Annual Report 2015

2015 has been quite peaceful for us. No big events organized as CAA, but our members were involved in organizing and participating in several digital cultural heritage related events.

Our main discussion channel has been our mailing-list and time to time some groups have met. 2016 is planned to be more active. In the first half of the year an event focusing on digital fieldwork techniques will be arranged. That would be also the first bigger CAA introduction event in Estonia.

Chair: Hembo Pagi
